Loose mixed waste not accepted at Kapa'a refuse transfer station until further notice; repairs anticipated to be made within two weeks

KAPA'A – The public is reminded that the Kapa'a refuse transfer station will not accept loose mixed waste due to electrical repairs, which is anticipated to be alleviated within the next two weeks.

Recycling services will not be affected, pending weather conditions.

Only bagged trash will be accepted until further notice while equipment repairs are underway. Additionally, the Kapa'a transfer station may be closed periodically during the business day, while trucks which receive bagged trash are replaced with empty trucks. These delays are for the safety of the public.

The public is advised that the Līhu'e refuse transfer station is available as an alternative to Kapa'a during this period. Reminders and announcements will be made when repairs take place.

For more information, please call the Solid Waste Division at 241-4841.
